

# QUICK CHANGE ALUMINUM CALIPER UPGRADE KITS FOR CLASSIC MUSTANGS

**Upgrade the stock 4 piston caliper on your 1964½ - 67 Mustang with our Quick Change Aluminum Caliper Upgrade Kit - all while maintaining your stock wheels!**

The kit includes Force 10® Classic 4-piston aluminum calipers with four 43mm stainless pistons and high performance pads. It is a direct bolt-on replacement to the stock 4-piston calipers that came on many classic Mustangs. Kits are also available for 1967 Fairlanes & Falcons as well as 1967 Mercury Comets & Cougars.

Simply unbolt the heavy cast iron stock caliper and put the new lightweight aircraft quality aluminum one in its place. The Force 10 Classic calipers are about half the weight of the stock cast iron ones, resulting in a reduction of unsprung weight from the front of your car, greatly improving ride quality.

### Features:

- Corrosion-free lightweight stainless steel pistons minimize heat transfer to the brake fluid for optimum performance
- Pad retainer clip securely holds pads, virtually eliminating rattling noise
- Calipers come standard with a clear anodized finish (optional powder coating available)
- Available with both 3/8" and 7/16" inlets
- Add our Turbo slotted and Xtra Life plated rotors for a complete performance look
