

QUICK CHANGE ALUMINUM CALIPER UPGRADE KITS FOR 1999-2004 FORD F-250 AND F-350 TRUCKS

Upgrade the stock 2 piston caliper on your 1999 - 2004 F-250 or F-350 with our Quick Change Aluminum Caliper Upgrade Kit - all while maintaining your stock wheels!

The kit includes Force 10[®] V8 8-piston aluminum calipers with eight 40mm stainless pistons and high performance pads. It is a direct bolt-on replacement to the stock 2-piston calipers that come on Ford F-250 and F-350 trucks. High performance brake pads increase the pad surface area by more than 25% vs. stock pads, increasing pad contact area and improving braking performance.

Simply unbolt the heavy cast iron stock caliper and put the new lightweight aircraft quality aluminum one in its place. The Force 10[®] V8 calipers are about half the weight of the stock cast iron ones, resulting in a reduction of unsprung weight from the front of your car, greatly improving ride quality.

Features:

- Corrosion-free lightweight stainless steel pistons minimize heat transfer to the brake fluid for optimum performance
- Calipers come standard with a clear anodized finish (optional powder coating available)
- Fits in stock wheels
- Bolts to stock spindles
- Add our Turbo slotted and Xtra Life plated rotors for a complete performance look

Force 10[®] V8 8-Piston Aluminum Caliper (shown with optional powder coating).
