

QUICK CHANGE ALUMINUM CALIPER UPGRADE KITS FOR 1999-2004 GM 3/4 & 1 TON TRUCKS

Upgrade the stock two piston caliper on your 1999-04 GM truck with our Quick Change Aluminum Caliper Upgrade Kit - all while maintaining your stock wheels!

The kit includes Force 10® Tri-Power HD 3-piston aluminum calipers with three 51mm stainless pistons and high performance pads. It is a direct bolt-on replacement to the stock two piston calipers that came on the front of 1999-04 3/4 ton and 2001-04 1 ton 2WD & 4WD GM trucks. Kits are also available for 2001-2004 1/2 ton HD trucks and 2000-04 GM 3/4 ton SUVs.

Quick Change™

ALUMINUM CALIPER UPGRADE KIT

Simply unbolt the heavy cast iron stock caliper and put the new lightweight aircraft quality aluminum one in its place. The Force 10 Tri-Power HD calipers are about half the weight of the stock cast iron ones, resulting in a reduction of unsprung weight from the front of your truck, greatly improving ride quality.

Features:

- 3 piston design provides more consistent pressure on the brake pad than the stock two piston caliper
- More consistent pad pressure reduces pad deflection, thus increasing clamping pressure on the rotor and reducing braking distance
- Included performance pads have same FMSI # as stock pads for easy replacement
- Increase brake torque up to 16%
- Corrosion-free lightweight stainless steel pistons minimize heat transfer to the brake fluid for optimum performance
- Calipers come standard with a clear anodized finish (optional powder coating available)
- Bolts directly to stock spindle
- Reuse original rotors OR install new stock size Turbo slotted rotors with Xtra Life plating
- Reuse stock cradle bracket
- Fits in stock wheels

**Easy working
brakes for hard
working trucks!**
